Sydney, NSW | Full working rights in Australia

Computer Science graduate with 5+ years as a Java Developer, experienced in designing and deploying ERP and POS solutions using Java, Spring Boot, REST APIs, and SQL databases. Focused on scalable, efficient, and secure software that optimizes business operations.

Work Experience

Supervisor

May 2022 - Present

Trippas White Group (Taronga Zoo Sydney) | Mosman, Sydney, NSW

- Supervised daily operations of a fast-paced hospitality team, leading teams of varying size and optimizing workflow to improve service efficiency.
- Developed and conducted staff training programs, enhancing team performance and customer satisfaction.
- Managed conflict resolution and problem-solving, ensuring smooth operations and high-quality service.
- Oversaw inventory and compliance processes, maintaining operational standards and reducing errors.

Software Developer

Dec 2016 - May 2022

Online Sistemas (Website: onlinebr.net) | Palmitos, SC, Brazil

- Led Java backend development for ERP and POS systems supporting 200+ clients, building scalable applications with Spring and SQL while ensuring system reliability.
- Designed and deployed serverless API components and data migration tools, automating database conversions for 50+ client systems and reducing manual workload by over 80%.
- Proposed and initiated the development of a new POS system (Java, PostgreSQL) to replace a third party provider, improving flexibility and reducing costs.
- Maintained and optimized the Java module responsible for cloud data synchronization between client systems and servers.
- Collaborated with cross-functional teams to deliver new mobile and backend features aligned with user and business needs.
- Developed 100+ customized SQL (PHP, JavaScript, MySQL) reports, improving decision making and user efficiency.
- Led the migration of the Android app to Ionic, enhancing cross-platform support and reducing maintenance.
- Contributed to new mobile projects (milk collection and municipal requests), expanding the company's market presence.

Skills

Java (Core), JavaScript, TypeScript, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, React, React Native, PHP, HTML, CSS, Ionic, Android, RESTful API, SOAP, Microservices, JSON, PostgreSQL, MySQL, Oracle, AWS, CI/CD pipelines, Full-Stack, OOP, MVC, Design Patterns, Server-Side Development, Documentation, Git, Maven, Docker, Postman, Jira

Education

WIC – Wells International College • Sydney, NSW, Australia Jan 2024 - Dec 2024
Advanced Diploma Information Technology

WIC – Wells International College • Sydney, NSW, Australia Jan 2023 - Dec 2023
Diploma Information Technology

UNOCHAPECÓ – Universidade Comunitária Regional de Chapecó • Chapecó, SC, Brazil Feb 2016 - Dec 2019
Bachelor’s degree Computer Science
Undergraduate thesis: Development of a “MULTIPLATFORM APPLICATION PROTOTYPE FOR FLAVOURS SELECTION DESIGNED FOR PIZZERIA CUSTOMERS” in Ionic/Spring Boot.

Certificates

ACS Skills Assessments: Developer Programmer, Software Engineer Dec 2024
Australian Computer Society

General English (Advanced level) Oct 2022
MIT Institute

Union of Scouts of Brazil (UEB) Oct 2006 - Present
Scout Group Gonçalves Dias
